

# OZONE spa sanitation

## B03

# SPA OZONATOR

Advanced technology from Aqua Sun Ozone. The B03 will deliver consistent ozone and will not burn out or corrode. Reduced chemical usage and less maintenance are the two most significant benefits from the Pacifica Spa Series Model B03. Standard input voltage 110V/240V for domestic and export requirements. Aqua Sun Ozone's micro-corona-discharge provides consistent ozone output with less heat, less energy usage and less nitric acid. There are no cartridges, chips or bulbs to replace.

EFFECTIVELY  
REMOVES WATER  
IMPURITIES AND  
MICRO-ORGANISMS.

## OZONE FACTS

- Ozone does not have to be purchased or stored; it is generated "on-site" and is introduced into the water automatically.
- Ozone does not affect the pH balance of water, thus minimising pH adjustments.
- Ozone helps reduce total dissolved solids in water so that the water does not have to be changed as often.
- Ozone is an extremely effective oxidizer and reduces chemical use dramatically.
- Reduces damage to pillows and covers due to chemical usage.
- Ozone converts back to oxygen as it exits the water.

## B03 SPA OZONATOR

**KILLS** harmful, Chlorine tolerant parasites, Cryptosporidium and Giardia

**KILLS** bacteria, viruses and mould

**REDUCES** chlorine use by up to 90%

### SPECIFICATIONS

- Power Input: 110V-240V, 50/60Hz
- Enclosure: ABS Plastic/PA-765A
- Dimensions: H: 63mm W: 94mm D: 44mm
- Weight: 320 grams
- Potted Electronics for Heat Distribution and Water Resistance
- Air Inlet: Filtered Ambient Air Restrictor
- Outlet: 6mm Check Valve Fitting
- Ozone Output: 50-100mg/hr Adjustable
- Available in: AMP and In-Link Plug Configurations
- 6mm Check Valve Included

### ACCESSORIES AVAILABLE

- Venturi Injector
- Tubing

### WARRANTY

- Two Years
- Excellent Customer Support Team
