50% LESS CHLORINE

feels 100% better

PROVEN MINERAL TECHNOLOGY

Natural minerals, such as silver and copper, have been used for thousands of years as a natural way to destroy bacteria, algae, and other harmful contaminants.

Nature² brings the benefits of these safe, proven elemental ingredients to create cleaner, clearer pool water.

CLEANER WATER, LESS HASSLE

Nature² is a simple and effective pool sanitizing solution. In conjunction with your pool's filtration system, it automatically delivers bacteria- and algae-fighting minerals to provide a more balanced, cleaner pool water with less hassle.

SMART SANITIZING SYSTEM

Because of Nature²'s natural bacteria-fighting properties, your pool will require less chlorine – up to 50% less! And, with its Controlled Release Technology (CRT), Nature² automatically dispenses the right amount of mineral ions into your pool water for continuous sanitizing and healthier pH levels. That means, Nature² keeps working even when chlorine has been depleted.

HOW DOES NATURE² EXPRESS WORK?

As water flows through the Nature² Express system, mineral ions are slowly and consistently released into the pool water, providing just the right amount of bacteria- and algae-fighting elements to keep your pool perfectly clean and fresh.

The Nature² Express system contains no moving parts and is unaffected by heavy use, hot weather and water temperature fluctuations. It provides the ultimate in water sanitation for your pool.

EASY DO-IT-YOURSELF INSTALLATION IN MINUTES

Nature² Express is the most convenient and easy to install mineral sanitizing system. In just minutes you can install Nature² Express, activate the cartridge, and start enjoying all the pleasures of swimming in a mineral pool.

Nature² Express fits most inground and aboveground pools up to 25,000 gallons with 1½" or 2" rigid PVC pipe plumbing.*

See easy installation instructions on back of this brochure.

*For aboveground pools with corrugated piping, use the adapter provided.
